

		For GSLA (Head of Development)	For GSLA (Facilities Managers)	For Association	For Individual
Who is this App/System For?		• Gives a clear indication of the health of Sports. Individuals need to rank the sports they do: First Choice, Second Choice etc... • Gives indications which courses they need to run. For example: if the system says that there is a need for a First Aid course because X coaches are coming up to their renewal time. • Platform to offer a Coaching Conference and to offer clinics there so that coaches can Develop. Coaching Personal Development Courses/Conferences. • Alert system when coaches required documentation is coming up for renewal.	• Can see statistics that can help them determine who gets what allocations.	• Associations can see the health of their sports. • They can see which areas they are strong in, which need help etc. • For example: if they have too many players but little to no coaches or volunteers etc. • Would need to register the teams/leagues into the system.	• They can check when they have allocations. • They can upload their documentation there. • They can sign up to courses. First Aid, Safeguarding, Coaching Clinics (Idea I want to explore, similar to the ICC Coaching Conferences I used to go to. • Helps GSLA to collect valuable stats as they would need to state their sports in preference order. This would be private as only GSLA would see this. Data Protection almost. • Players need to register to their teams once the association has uploaded them.
Goals / Department / Users		Goal: Improve visibility, planning, and strategic development of sports across Gibraltar.	Goal: Improve efficiency and fairness in facility use, scheduling, and maintenance.	Goal: Streamline operations, enhance communication, and strengthen development planning.	Goal: Simplify engagement, learning, and communication in sport.
Clean Version of What the App Should do:		• Dynamic Dashboard: Visual overview of participation by sport, age, gender, and club affiliation. • Trend Analysis: Identify growth or decline in specific sports using year-on-year comparisons. • Automated Reports: Generate monthly or	• Smart Booking System: Link training schedules, competitions, and maintenance directly to facility calendars. • Facility Utilization Analytics: View occupancy rates by sport, time, and location to optimize usage. • Maintenance Alerts: Automatic reminders for	• Membership Management: Centralized registration of players, coaches, and officials. • Development Gaps Analysis: Visual indicators showing shortages in coaches, referees, or volunteers. • Course Booking & Certification: Simplified	• Personal Sports Profile: Display sporting interests, teams, achievements, and certifications. • Renewal & Compliance Alerts: Notifications for expiring First Aid, Safeguarding, or Coaching certificates.

		quarterly summaries for board meetings. • Coaching Development Tracker: See how many coaches have achieved each certification level, and when renewals are due. • Volunteer Pipeline: Track volunteer engagement and identify gaps by sport or event. • Funding Justification Tool: Auto-generate data-based funding proposals for ministries or sponsors. • Digital Accreditation: Manage accreditation for clubs, coaches, and officials (e.g., bronze/silver/gold levels). • Integration with National Sports Council: Share anonymised data for policy development and sports promotion.	inspections, repairs, and certifications. • Environmental Tracking: Monitor energy or water use per facility to support sustainability goals. • Incident Reporting: Allow users or staff to report equipment or safety issues through the app. • Integration with Development Data: Link facility demand to participation growth in specific sports.	sign-up for GSLA courses and digital certificates upon completion. • Event Management Module: Create and manage competitions, fixtures, and results. • Funding Application Portal: Apply for GSLA grants with data pulled directly from system metrics. • Communication Hub: Send bulk announcements to registered members or clubs. • Coach & Player Retention Insights: Identify drop-offs and patterns to improve retention strategies.	• Digital Wallet: Store all documentation (e.g., ID, qualifications, DBS). • Course Marketplace: Browse and enroll in upcoming GSLA or Association courses. • Performance Logbook: Optionally track personal stats, training sessions, or wellness metrics. • Badge or Points System: Recognition for attending workshops, volunteering, or achieving milestones. • Feedback System: Allow users to give feedback on courses, facilities, or events. • Privacy Controls: Let users choose what information is visible to their association or GSLA.
		Main Goal: Build a data-driven ecosystem that supports long-term sports development, participation, and excellence.	Main Goal: Ensure facility planning, availability, and use directly support developmental needs of each sport.	Main Goal: Empower associations to plan and execute structured development programs for their sport.	Main Goal: Motivate, educate, and retain people in sport through personal growth and community recognition.
		Strategic Development Tools • Talent Pathway Tracking: Identify athletes' progression from grassroots to elite level, across all sports.	Facilities Supporting Development • Development Priority Scheduling: Allocate prime-time slots to youth or developmental programs.	Grassroots & Talent Development • Club Development Toolkit: Step-by-step resources for clubs to improve governance, coaching, and retention.	Athletes • Progress Tracker: Personal log for training, competition results, and goals linked to their association.

		• Development Indicators Dashboard: Show metrics such as participation rates, coach-to-player ratios, gender balance, and drop-out rates per age group. • Early Intervention Alerts: Notify GSLA when participation in a sport is declining, enabling proactive support. • Performance Benchmarking: Compare local participation and development data against international averages or neighboring regions. • Funding Impact Analysis: Link GSLA investment (grants, facilities, courses) to measurable participation or performance outcomes. Program Planning & Collaboration • National Development Plans: Each sport can upload its annual/long-term development plan to align with GSLA's strategic goals. • Coach Education Pathways: Coordinate between NGBs (National Governing Bodies) and GSLA to ensure aligned	• Sport Development Map: Identify geographical "gaps" where facilities are limiting participation opportunities. • Facility Suitability Database: Record facility standards and suitability for various competition levels. • Training Camp Planner: Coordinate multi-sport development camps (e.g., "Summer Youth Sports Week"). • Facility-Coach Link: Automatically match facility bookings with qualified coaches registered in the system. Long-term Facility Planning • Usage-to-Participation Correlation: Link how facility usage affects participation growth per sport. • Facility Development Forecasting: Use data trends to plan new pitches, courts, or halls for emerging sports.	• Talent Identification Module: Associations can log and monitor talented youth, linking to coaches and academies. • School Sport Integration: Track and link participants from school programs into club pathways. • Coach Mentorship Platform: Pair novice coaches with senior mentors within their sport. • Volunteer Recruitment Portal: Associations can post and track volunteering opportunities (officials, helpers, etc.). Performance & Planning • Strategic Development Planner: Helps associations set measurable goals (e.g., increase participation by 15%, train 10 new Level 2 coaches). • Funding Alignment Tool: Suggests suitable GSLA or external grants based on development goals. • Coach & Official Development Ladder: Visual pathway showing required qualifications and next steps. • Retention Analysis: Highlights at which age	• Development Milestones: System awards digital badges for achievements (e.g., first competition, coaching assistant certification). • Talent Promotion: Option for associations to flag talented individuals for advanced programs or scholarships. • Feedback & Mentoring: Direct access to feedback from coaches, with progress reviews. Coaches • Continuous Professional Development (CPD) Tracker: Tracks completed courses and suggests next steps based on sport and level. • Coach Community Forum: Share drills, resources, and best practices across Gibraltar's sporting network. • Data-Based Recommendations: Suggest what type of coaching courses are most in demand for their sport. • Certification Renewal Reminders: Linked with
